Press Release

RaceCraft Start/Finish Gantry kit

Old School Model Works is proud to introduce another addition in our lineup of RaceCraft Slot Car Accessories – because there's more to a great layout than just some track.

All RaceCraft kits are precision laser-cut from basswood and feature interlocking pieces that make it easy to assemble and properly align the parts. Laser-etched detail, such as paneling, simulated brick, logos, etc. add to the realism. When assembled, leave the kit as-is or paint it for a more realistic look.

Our Start/Finish Gantry kit is the perfect addition to any 2 or 4 lane track layout. It includes details of precision-cut gantry construction as well as laser-etched Start and Finish panels. The bottom edge of the Start Panel includes circular cutouts similar to the FAI-standard 5-light starting system, so the gantry could be fitted with a third-party LED starting system (not included) for even more realism.

The Start/Finish Gantry kit also includes an additional center section that can be assembled and used to extend it's span, allowing the gantry to then comfortably fit over a 4 lane track. The kit assembles quickly, and is the perfect way to add a bit more realism to your track layout.

Create and add your own sponsorship graphics, or you can download a .pdf with sample sponsorship graphics for free from our website which includes several different logos, sized for both our 1/64 and 1/32 scale billboards.

1/32 Scale Specifications:

Height: 7-1/2" • Width (2 lane): 14-1/2 inches - (4 lane): 21-1/2 inches • Depth: 2 inches

1/64 Scale Specifications:

Height: 5" • Width (2 lane): 9-1/2 inches - (4 lane): 14-3/16 inches • Depth: 1-5/16 inches

Retail Price - \$34.95 (1/32 scale), \$28.95 (1/64 scale)
